# Sensory Guide

This Sensory Guide will help you to determine whether an event is “sensory appropriate” for someone with a cognitive disorder/sensory sensitivity. Each event activity is given a sensory rating of 1 (low) to 5 (high).

Certain events provide sensory-friendly sessions, where activities are adjusted to remain at level 2 or below on the intensity scale. These sessions also offer kits equipped with tools designed to promote calmness and relaxation. Sensory-friendly sessions will be designated in our event calendar.
